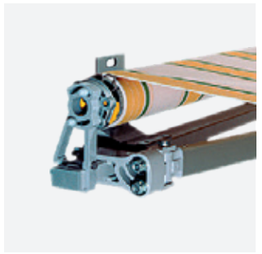
GRIESSER

# Awnings from Griesser.
G 2000

## G 2000

The designers of the G 2000 awning concentrated on the essential: functionality. Weatherproofness and stability are then also at the top of the list of requirements. Thanks to the flexible possibilities its use, G 2000 creates comfortable and homelike balconies and seating in a huge variety of buildings.

# Product highlights G 2000



**G 2000 with supporting tube**

The G 2000 with supporting tube can be used in many ways and takes on a supporting function on your balcony.

**G 2000 with aluminum housing**

A fitting aluminum roof protects the G 2000 standard or G 2000 with supporting tube from dirt and the weather if it is fitted on an exposed wall.

**G 2000 with sleeve**

When this stylish awning is retracted, the fabric is rolled up in a sleeve and protected from the weather.

**Hinged arms with steel cables**

Arm profiles made from extruded aluminum and hinged parts made from powder-coated cast aluminum.

A steel rope encased in plastic is located in the middle hinge.
